

## The NOCHASE Spike System™ is:

- **Compact and Easy to Use**  
Simple, intuitive field operation means you can use NOCHASE to control every traffic stop, and makes training and deployment painless
- **Lightweight Yet Tough**  
Our rugged, durable steel and aluminum construction weighs less than 8 lbs
- **Cost-Effective**  
NOCHASE will be one of your least costly pieces of gear, but is a highly visible deterrent to fleeing motorists who would cost thousands of dollars in pursuit and property damage
- **Configurable for Your Department's Needs**  
Reversible for driver or passenger side approach, with internal and external vehicle mounting and case options

## Fleeing Motorists By the Numbers

- Every year in the U.S., law enforcement officers make 18 million traffic stops, from which over 65,000 motorists flee
- Over 15,000 deaths and countless injuries have resulted from police chases (including LEOs, bystanders, other motorists, and perpetrators)
- Police chases have resulted in billions of dollars in property and vehicle damage
- Many departments are instituting policies limiting or prohibiting chases

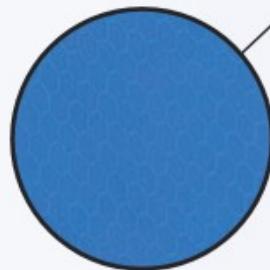

Sturdy retractable handle makes placement a snap and stows away compactly when not in use

"Safe Engage" mechanism keeps components secure even when motorist's tire rolls over spike plate

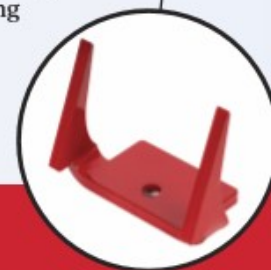

## NOCHASE: Your Built-in Backup at Every Traffic Stop

"Blue Line" micro prism reflective surfaces meet or exceed ASTM D4956 (Type III) standards, providing strong visual cues to officer and motorist

Quick-release spike plate is fast, easy, and reliable in field deployment

Penetrating steel spikes reliably puncture vehicle tires if motorist attempts to flee the stop

## The NOCHASE Mission

Our mission at NOCHASE is to protect the lives of officers, motorists, and bystanders by preventing the deadly traffic chases that can result when motorists flee traffic stops. By using the **NOCHASE Spike System™** at every stop, you can **Stop the Chase Before It Starts™**.
